

PH-59L (Series)

Automatic Tray Sealing Machine CE

PH-59L(Series) is table top motor-driven tray sealer, it has a fully customizable mold option for 1 or 2 cavities according to your trays sizes or shapes and an "exchangeable mold" feature, which allows you to exchange the machine's molds in case you have 2 or more different trays. It also offers MAP (Gas Flushing) system if required.

Model	Machine Size (WxLxH mm)	Power	Weight (KG)	Capacity (Seal/hr)	Max. Container Size (WxLxH mm)
PH-59L	420 x 540 x 770	110/220V, 600W	60	400	220 x 170 x 120
